Miss Perry's Class Garden of Miracles

This beautiful art glass platter was created with a distinctive design from each student who used hand cut pieces of glass on a green or blue glass tile. Look closely and you will see a garden of flowers, insects, and reptiles. Can you spot the white bunny? Can you feel the warmth of the sunshine? This work of art was heated to fuse the pieces into one solid sheet of glass. The sheet was slowly cooled, placed into a mold, and heated a second time to slump it so the piece has depth and shape. This glassware can hold food items or be displayed on the stand. Your new masterpiece can easily be cleaned with soap and water. Not intended for microwave or oven use. Bring a garden into your home.

Special thanks to Pam Hsia and Karen Firminger.
