## A Message from the President and Headmaster

Thank you for supporting The Bear Creek School through your participation in this year's auction. The net proceeds from the auction will once again support REACH UP: The Campaign for Bear Creek to finish construction of the new Upper School and Fine & Performing Arts Center. Donations to the Fund-A-Need will be dedicated to creating Innovation Labs for each division, as a key part of fulfilling the first plank of the strategic plan, *Dare to Dream 2020, Imagine the Greater Conversation*. These creative spaces will stand at the intersection of a Christian liberal arts education and our contemporary world, providing a place where technology and student imagination can flourish.

Your generosity tonight helps sustain The Bear Creek School's mission. Thank you for continuing our legacy as a community of *faith, excellence, and virtue*. Enjoy the auction and the opportunities for fellowship with one another.

Grace and peace,

A handwritten signature in black ink, reading "Patrick B. Carruth". The signature is written in a cursive, flowing style with a large initial "P".

## Fund-A-Need

*“Why?” “What If?” “How Can I?”* These questions, asked throughout history, repeatedly opened the doors to innovative discoveries and creative quests that have enriched and advanced our culture and our society.

Tonight’s Fund A Need will support the creation of Innovation Labs for each division - physical spaces where our students can ask these types of questions, and find the tools and equipment they need to create, to explore, to innovate, to collaborate, and to pursue their passions.

The Innovation Labs will offer cutting-edge independent learning environments that bring together the STEM disciplines – Science, Technology, Engineering, and Math, with the arts and humanities. Materials will range from large foam building blocks, puppetry materials, Legos, and simple tablet programming opportunities for young students, through 3D printers, music and video composition tools, electronic and robotic components, and a variety of age-appropriate computers and software.

Please be generous tonight in raising your paddle to help us equip the Innovation Labs. With your help, we can provide the creative spaces where students are inspired to use their imagination and ingenuity to grow in wisdom, compassion, and courage.
